Moo 2 You specialise in luxurious real dairy ice cream

We use only the finest ingredients with fresh milk, cream, and a few secret extras to produce our famous ice cream. At present we have an ever developing and extensive range of flavours but our team are always experimenting and inventing new and original flavours (visit our website for the latest flavour). If you do not see a flavour you would like in this brochure or our website, then please ask us as the chances are we can either produce the flavour or we have already been experimenting.

Moo 2 You is a family run business that offers a friendly and personal service, we aim to please. We wholesale our products to many restaurants, delis and hotels across the North West and other locations.
